Understanding What it Takes
Our employees can draw from a profound knowledge base at the "Accenture Institute for High Performance".

An Excellent Employer
National and international awards have confirmed time and again that we are using the right approach:
- e.g. the Great Place to Work® award in Austria & Switzerland.

Flexible Career Planning
Our employees’ needs will change over the years. With a number of programs we will support you in shaping your individual career:
- Flexible Hours/individual working models (Flextime, Part Time, Job Sharing, Home Office)
- Child Care and Elder Care Programs
Continuous Education and Training – Comprehensive individual development schemes

Part of the support Accenture offers you is ongoing training to help you remain at the top of your game and continue to grow.

- Comprehensive Training Curriculum
- Mandatory Basic Training
- Individual Training Budget

Know-How Network
- A diverse group of international colleagues, united by a common corporate culture
- Communities
- Knowledge Pool & Knowledge Sharing Network

Social Responsibility

We get involved in the world we live in – with all our capabilities. Apart from our Accenture Foundation we offer our employees plenty of opportunities to become active in charitable projects and to participate in social programs.

“Skills to Succeed“

Accenture’s corporate citizenship initiative, Skills to Succeed, helps address the global need for skills that open doors to employment and economic opportunity. It draws on two of Accenture’s core capabilities: training talent and convening partnerships to achieve tangible, measurable results.

Accenture Foundation

By the end of 2013 Accenture and the Accenture Foundation had contributed over 100 million USD in our Corporate Citizenship Program, both in the form of donations for global and local projects, and in the form of employee activities.

Environmental Protection

We are aware of the environmental impact of everything we do, and we have pledged to reduce pollution, e.g. by reducing CO2 emissions and by promoting eco-efficient work practices. We reduced our per employee carbon emissions by more than 43 percent against our fiscal 2007 baseline.
